

SR-710 Tunnel Technical Study Exploration Program Notice MONDAY, FEBRUARY 23, 2009

In June 2008, Caltrans and Metro began the SR-710 Tunnel Technical Study to examine the possibility of constructing a tunnel to close the gap between the northern SR-710 termini and the Foothill Freeway (I-210). This geotechnical study will involve research, exploration and technical analysis of the soil and sub-surface conditions found while tunneling at depths of more than 250 feet.

What type of testing will be performed?	Testing of local soils will be studied by drilling (boring) a six- inch wide hole through the soil surface. Information about the various types of soil, such as rock or sand, will be gathered.
Where is the testing site located?	The testing site is on Pine Crest Drive and Milford Street, in the <u>City of Los Angeles (Arroyo Seco)</u> .
*When will testing in my area begin and end?	Work will begin on Monday, February 23, 2009 and continue through Tuesday, March 10, 2009.
*What time will testing crews be present?	Crews will be on-site from 7 a.m. to 5 p.m.
What can I expect during working hours?	Intermittent drilling noise, dust and slight traffic delays. Parking restrictions will also be in effect.
Will local access be permitted during the testing?	Access to private property will be maintained at all times. No traffic detours are planned. Please follow all applicable traffic and safety laws.
Where can I call to get more information?	Call 1-877-710-4111 or visit http://www.710tunnelstudy.info

***Schedule is subject to change.**

Please use extreme caution while walking, bicycling or driving near the testing area and obey all traffic signs.

Thank you for your patience and cooperation!
